

THE JERUSEM CIRCLES - THE RESIDENTIAL RESERVATIONS

46:5.1. The residential reservations assigned to the major groups of universe life are designated the Jerusem circles. Those circle groups which find mention in these narratives are the following:

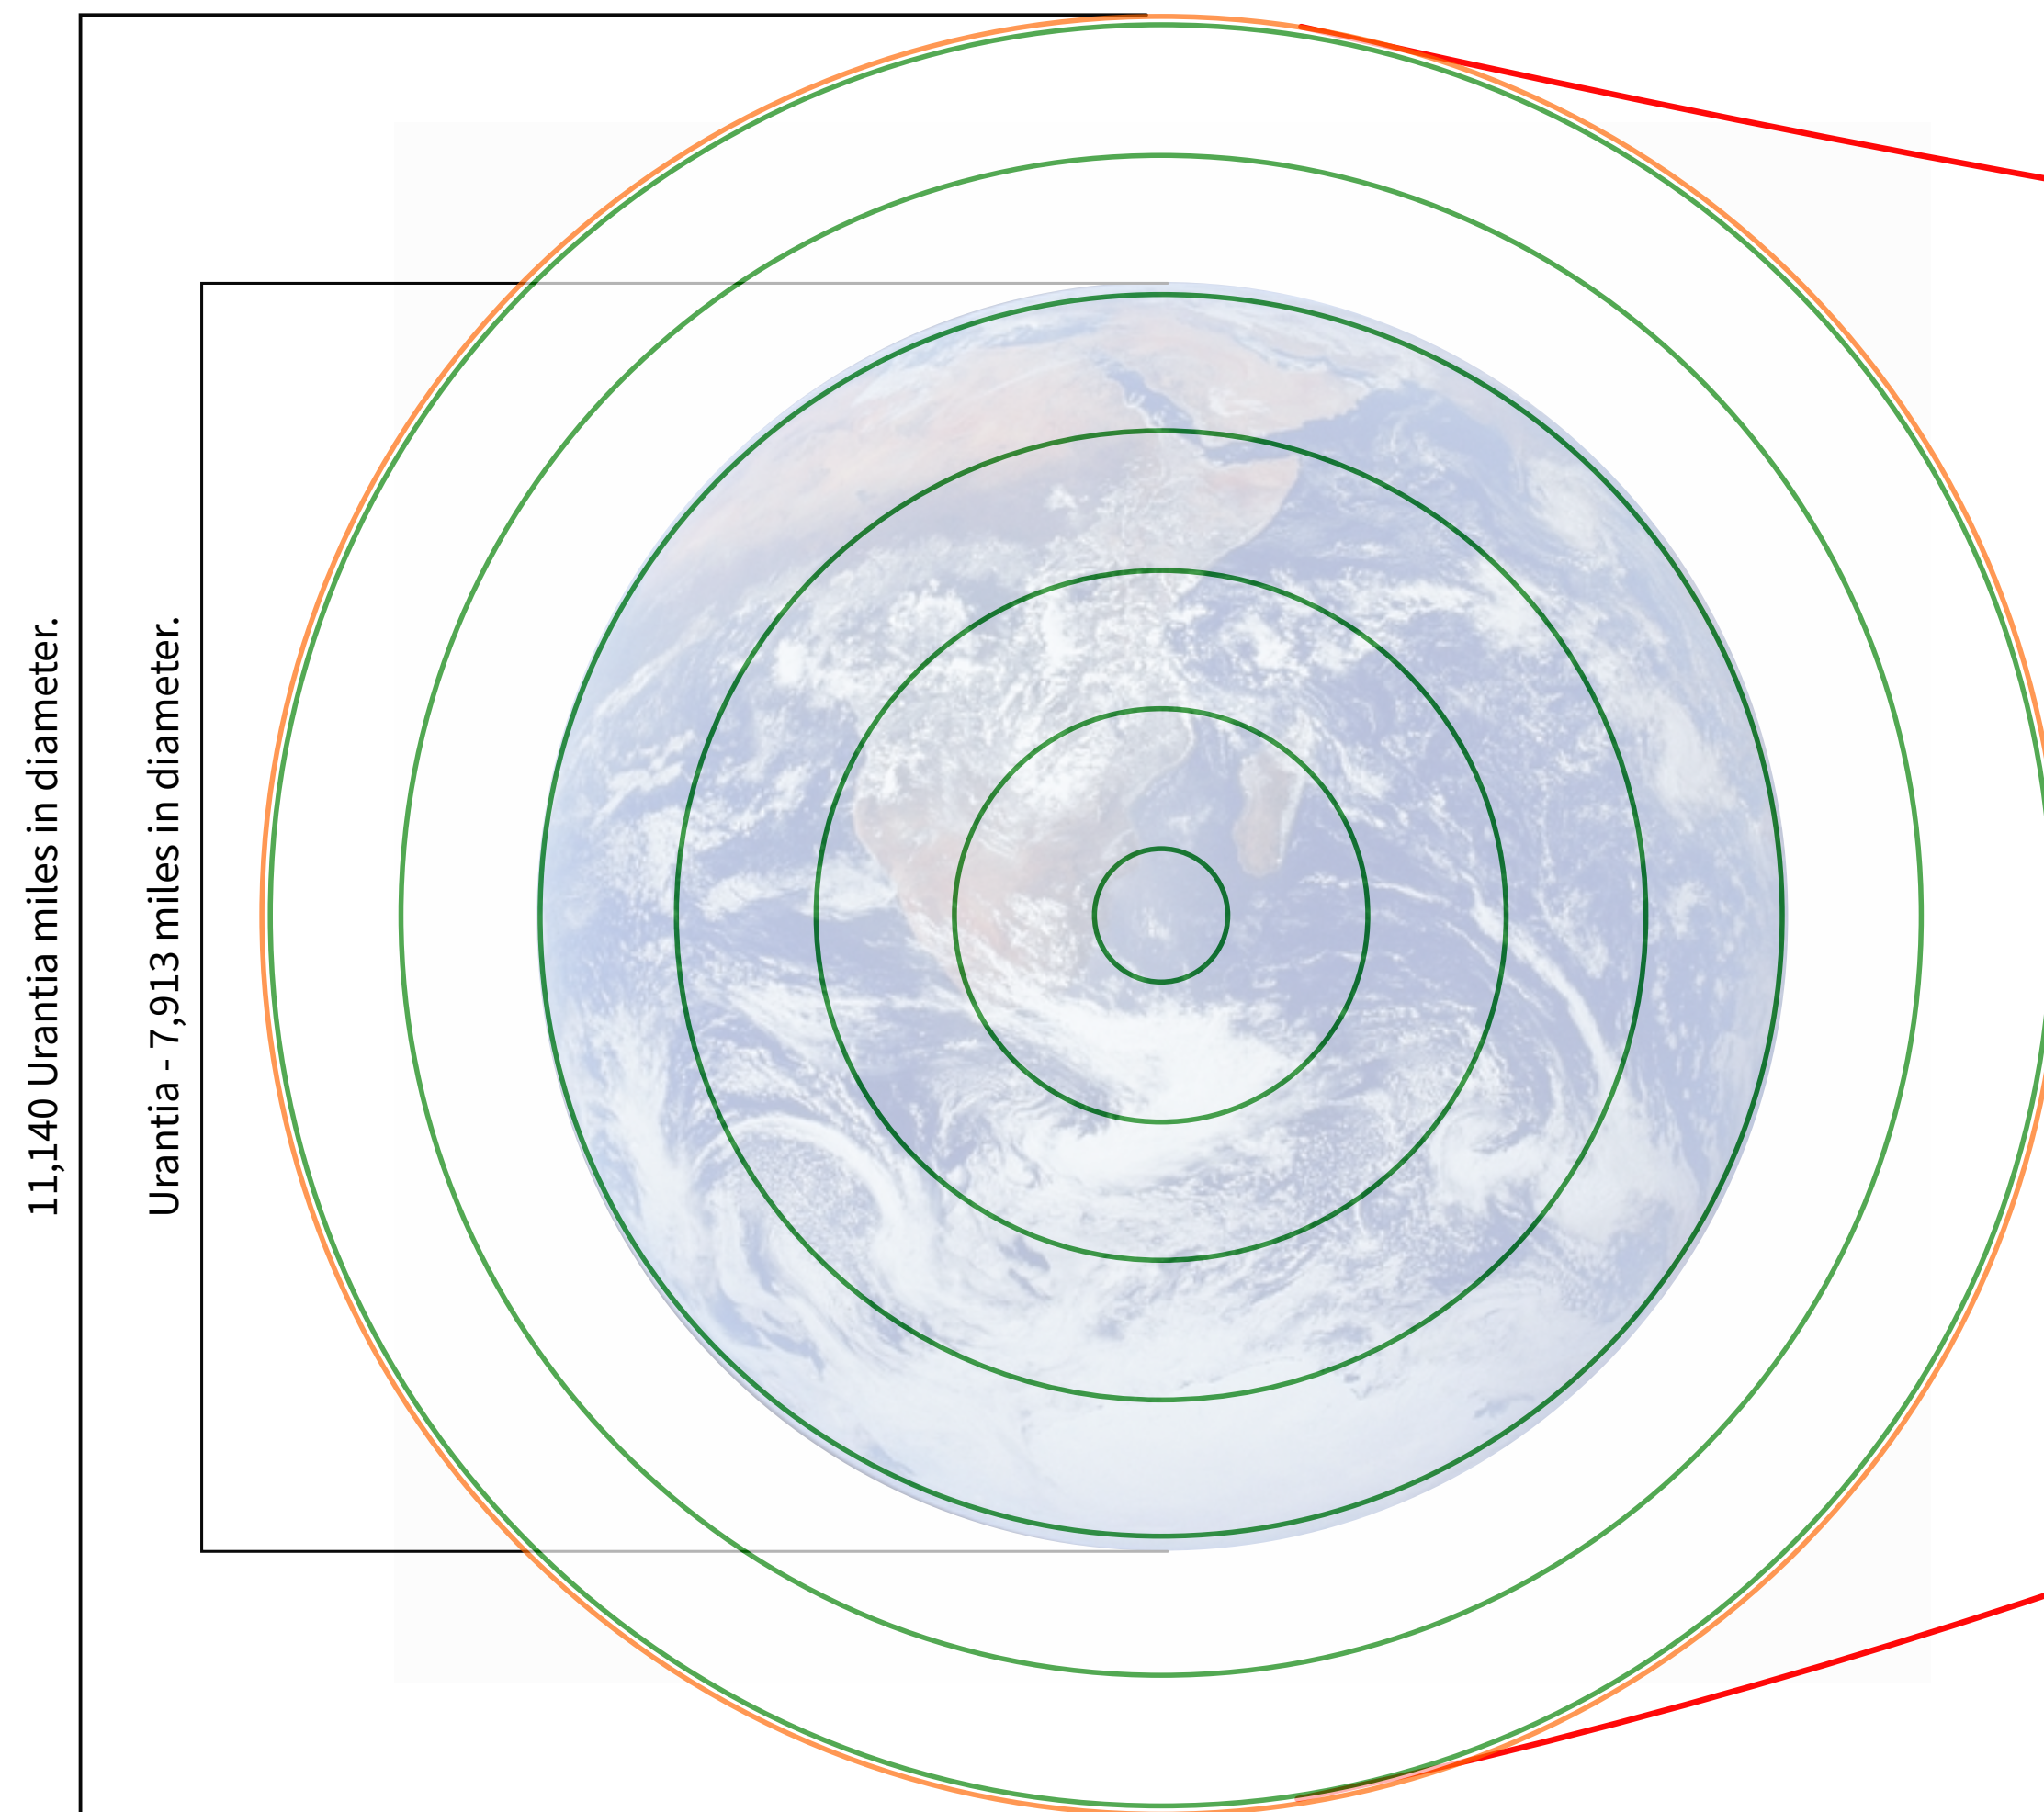

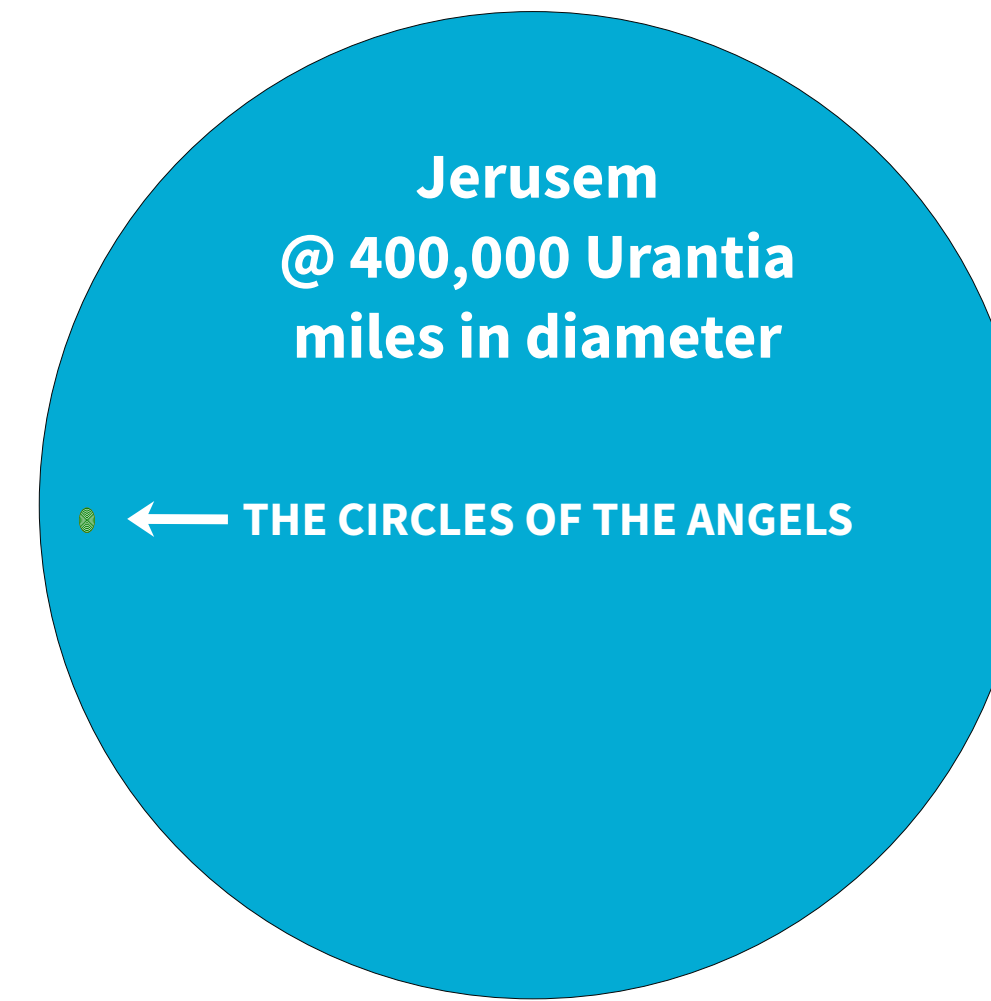

- 46:5.2. 1. The circles of the Sons of God.
- 46:5.3. 2. The circles of the angels and higher spirits.
- 46:5.4. 3. The circles of the Universe Aids, including the creature-trinitized sons not assigned to the Trinity Teacher Sons.
- 46:5.5. 4. The circles of the Master Physical Controllers.
- 46:5.6. 5. The circles of the assigned ascending mortals, including the midway creatures.
- 46:5.7. 6. The circles of the courtesy colonies.
- 46:5.8. 7. The circles of the Corps of the Finality.

46:5.9. Each of these residential groupings consists of seven concentric and successively elevated circles. They are all constructed along the same lines but are of different sizes and are fashioned of differing materials. They are all surrounded by far-reaching enclosures, which mount up to form extensive promenades entirely encompassing every group of seven concentric circles.

46:5.23. These seven circles [of the angels] are surrounded by the exhibit panorama of Jerusem, five thousand standard miles in circumference, which is devoted to the presentation of the advancing status of the peopled worlds of Satania and is constantly revised so as to truly represent up-to-date conditions on the individual planets.

46:1.2. The standard mile of Jerusem is equivalent to about seven Urantia miles. Source: The Urantia Book

THE CIRCLES OF THE ANGELS Shown to scale on Jerusem

THE CIRCLES OF THE ANGELS

These 7 circles are surrounded by the exhibit panorama of Jerusem which is 35,000 Urantia miles in circumference or 11,140 miles in diameter.

Planet Earth is shown in the background for comparison, and is 24,860 miles in circumference or 7,913 miles in diameter.
