

THE DESTINY OF THE MASTER UNIVERSE

UNIVERSE OF EXPERIMENTATION

The Master Universe Level of Experimentation is not to be finalized until the Ages of the Absolute, the Ultimate, and the Supreme are completed.

The Master Universe is being designed so that future universe ages can make infinity partially comprehensible to the creatures of past universe creation dating from the Age of Experience. The Age of Experience of the Supreme has already completed only about 1/5th of its total work.

AGE OF THE SUPREME

Motion is the primary expression of God the Supreme. The Supreme synthesizes the relationship between matter and spirit in order to control spirit and matter with time and motion. The finalized values of the Supreme are the Ultimate's starting points to produce totally new concepts subject to infinite integration toward God the Absolute's (spaceless without losing space conditioning) realization.

AGE OF THE ULTIMATE

Remotion is the primary expression of God the Ultimate, and transcends the separation of spirit and matter without time motion (i.e. the need for sequence). Remotion is the act of taking back and reissuing conditions until they reach synchrony with what has been potentially and pre-eternally established by Paradise Deity.

AGE OF THE ABSOLUTE

Space is a comprehensive leash on time, and as such the leash is removed after the Fourth Outer Space Zone. Then space becomes a convenience of extrapolation, moving what was once constrained by time into the objective reality of that which is no longer constrained.

The Supreme has conditioned all reality as it relates to the Four Outer Space Zones, and only after God the Ultimate shares these Supreme concepts and retools them into eventuated reality, does the space stream relinquish its control.

The Fifth Outer Space Zone and Non-Space Extension is in reality an extension of Havona Space Level subdivided into thirty-three inside levels of absolute integration.

AGE OF THE ABSOLUTE OF INFINITY

In many ways the Master Universe will now be conceived as beginning with the Absolute Area (now called the Fifth Outer Space Zone and Non-Space Extension), and by gradations, moves outward toward the old development of the Supreme in the old Superuniverses. It appears to the mortal mind that the Master Universe has turned itself inside out to become a final expression of the plan by the Universal Father, the Infinite Spirit, and the Master Architects of Space to return the normal progression backwards from present day observations to the finality of adjustments needed to make the Master Universe a finality of choices made by the Supreme and the Ultimate and God the Absolute to move inward to the Father Infinite.

THE QUATRAIN UNIVERSES

The Quatrain Universes are unique to the Master Universe since they are designated as Absolute creations based on the physical matter known as absolutum, all creatures and matter then being under the control of an extension of Peripheral Paradise into what is now the Havona Space Zone.

The Quatrain Universe Level of Dispensation Infinity are new universes that have to hear God the Ultimate and God the Absolute before they can hear God the Supreme. They are also controlled from Outer Space Zone 4 and not directly by Paradise. This is a complete reversal of what the current universe Age does for all creatures who take origin in it.

MASTER UNIVERSE AGES

The Master Universe is being designed so that future universe ages can make infinity partially comprehensible to the creatures of past universe creation dating from the Age of Experience. The Age of Experience of the Supreme has already completed only about 1/5th of its total work. It will be very far into the future before we can even approach the reality of the Destiny of the Master Universe.

Cross Section View (not to scale)

OUTER SPACE ZONE 5 The Dome

The gravity bodies in OSZ 4 will trace the elliptical shape of OSZ 5 by becoming much larger and will become the new gravity center of the Absolute or Infinite Master Universe.

OSZ 5 moves up and over the four outer space levels, the time universes, and comes to a point where the time universes currently touch peripheral Paradise.

OSZ 5 will not cover the Isle of Paradise.

The dome of absolute definitions of experiential creation are the first three dimensions of creative and purposive reality. The extension of an absolute zone over the Master Universe will recognize the up and the down and time and no time and space and no space. Three dimensions are inherent in the four outer space levels as well as the superuniverse level and even in Havona to the degree they recognize the working objectiveness of the time universes whom they receive as ascenders.

The dome also has to recognize that its shape is not defined by the Absolutes themselves, but by the Universal Father, who does not recognize limitations of purposive creation of just the experiential universe, but that the destiny of a multidimensional universe that recognizes its own further dimensional realities, causes the Father to release the Consummator of Universe Destiny as a new reality based on the fulfillment of all experiential reality plus what the Master Universe will express as an infinite creation, containing no space universes that encapsulate the Master Universe.

The dome is conditioned, not by the lack of gravity, but by the lack of coherent control of linear gravity. Gravity that is absolute contains gluons and gravitons, but it does not have force fields that draw plasmas out of their confined shape.

All of the other outer space zones have linear gravity control inherent in their creation, but OSZ 5 is without gravity bodies inside of it (although there are gravity bodies on its perimeter, courtesy of OSZ 4, that conditions the preceding areas of the Master Universe design).

Therefore, OSZ 5 has to control absolute zero and absolute materializations inside of itself by forcing these conditions to remain inside of it as it dare not allow zero gravity and zero heat to leak into the other zones of the Master Universe, for that would and could destroy the entire concept of what the Universal Father is putting into place.

Size becomes irrelevant in the new paradigm of the completed Master Universe. What becomes important is not its dimensions (they are no longer measurable), but its creative purpose. Now the idea of existence becomes a matter for debate as to what it will be like, but where once distance was a great obstacle in the Master Universe, and universes became isolated in their developments, the new Master Universe, now has no obstacles to the prevailing conditional existence of life in the time and no-time space universes. Even today, on the Isle of Paradise, one does not have to move from point A to point B, to get somewhere. That can be taken care of with thought control and spirit ascension of insoluble devices only known on Paradise.

The future Master Universe has no positional calculation anymore because all boundaries are erased including the use of time. Thus we must introduce the subject of a fourth dimension that lies only in the absolute levels of the future Master Universe.

This fourth dimension is operating in the dome as a dimensional change to the Master Universe that has nothing to do with the position of an observer, but has everything to do with the heart of God.

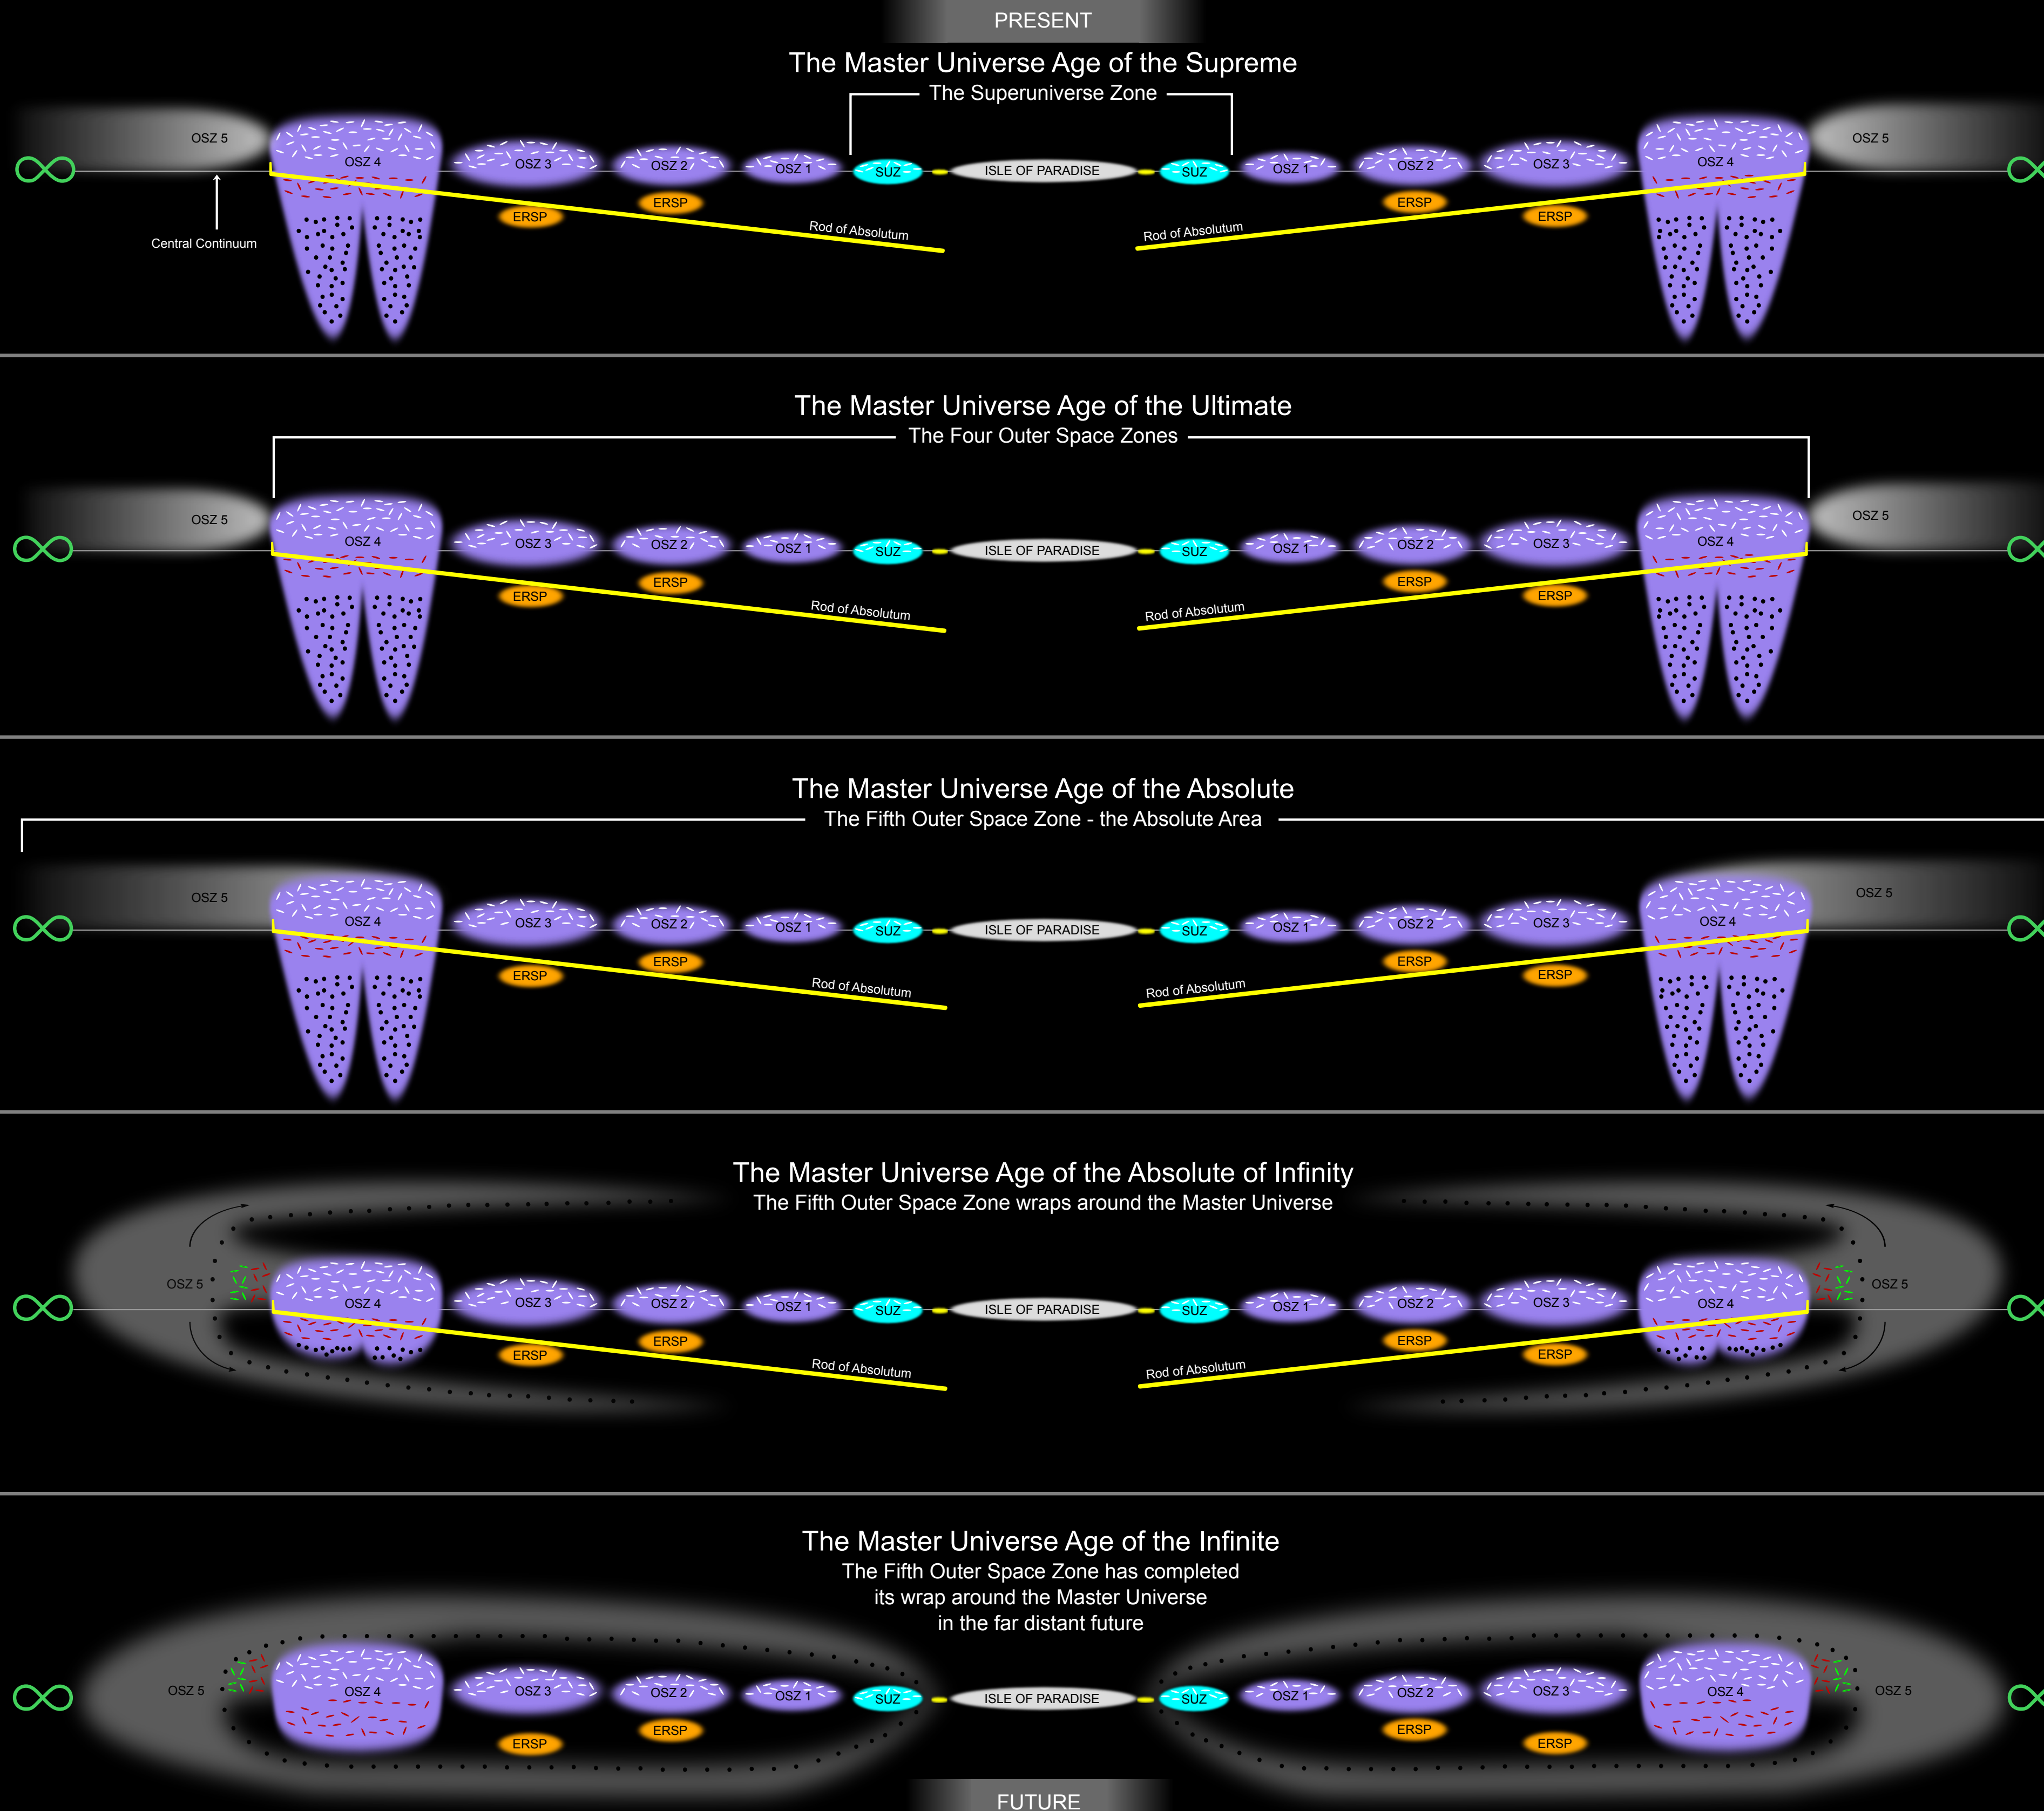

The following plats of the Master Universe are given in accordance with the best information available today. These facts and dimensions involved are from the direct correlation of materials supplied to me by Rayson, who spoke through the Scribe, Ronald Besser, to prepare drawings to show the newly revealed purposes and shapes and distances involved in the Grand Universe and the imposition of the Master Universe as shown in accordance with further guidance from the Ancients of Days, situated on Uversa, the Capital of Superuniverse Seven, named Orvontion, and by expressed permission of Paradise, to allow the drawings prepared by Xavier, to show actual dimensions in certain cases.

I, Xavier, do process these drawings in accordance with the standards available to me from software loaned to me by the Spirit of Truth and the Spirit of Thought, both which are located on Salvington, and are hereby rescinded to my use so long as I am not instructed to provide additional drawings for the Science Officer, Rayson, and Avonal Son situated on Urania at the time of the indictment of these drawings for purposes of education and use in laboratories throughout the planet of Urania for now and for all future time, as that may be defined today or later.

I am Rayson, and I incline these drawings to be a fair representation of the actual facts disclosed to me in order to bring these drawings before the public for educational and other purposes of demonstration. In these disclaimers above me, I mention the Scribe, Ronald Besser, who is also assigned to me to partake of the lessons on Ultimacy and of the Absolute, views of time and space, and commend him for bearing with us, Rayson and Xavier, to present these drawings to the Universal Father on this date as they are corrected and prepared for publication on Uversa and Urania. These words were dictated and the drawings edited and prepared for publication today, September 15, 2014, and to which I affix my Seal of Approval. I am Rayson, Science Officer and Liaison Officer to the Magisterial Mission.

OUTER SPACE ZONES

- SUZ - Superuniverse Zone
- OSZ - Outer Space Zones
- Galaxies
- Quatrain Galaxies
- Absolutum Galaxies
- Dark Gravity Bodies
